PROFESSIONAL SUMMARY

IT Support professional with 2+ years of Tier 1–2 technical support experience resolving hardware and software incidents in government environments. Hands-on lab experience in Windows Server, Active Directory, Group Policy, Office 365, Help Desk troubleshooting, software deployment (PDQ Deploy), and SOP documentation through a 7-project IT administration lab series and 42 applied cybersecurity projects at Dawson College. Strong communicator seeking a Junior IT Support / Help Desk role supporting end-user devices, service desk operations, and IT lifecycle management.

EXPERIENCE

National Statistics and Information Authority (NSIA)

2020 – 2022

IT Support Technician (Tier 1–2)

Kabul, Afghanistan

- Provided timely response to **incidents and service requests** for end-user hardware and software, meeting defined SLA targets
- Diagnosed and resolved issues via phone, in-person, and ticket-based support; prioritized and escalated per ITSM procedures
- Supported **Windows workstations and servers**: user account creation, password resets, and access provisioning
- Assisted with **LAN/WAN administration** and proactive maintenance of network infrastructure for mission-critical systems
- Authored and maintained **knowledge-base articles and SOPs** to reduce repeat incidents and accelerate resolution times
- Coordinated vendor escalations and complex ticket management, demonstrating structured incident handling under pressure

National Statistics and Information Authority (NSIA)

2019 – 2020

Identity Card Officer – IT Division (Customer-Facing Support)

Kabul, Afghanistan

- Delivered direct **customer service** to citizens: operated biometric enrollment systems and guided applicants through ID card issuance
- Maintained data accuracy and compliance with government IT security and access-control policies
- Trained new staff on hardware and procedures; acted as liaison between technical teams and end users

IT ADMINISTRATION & HELP DESK PROJECTS (LAB SERIES – DAWSON COLLEGE, 2025)

Project 1 – Windows Enterprise Lab

- Installed/configured Windows Server & Windows 10/11 in VMware/VirtualBox; managed **Disk Management**, Windows Services, and **Performance Monitoring**; applied systematic troubleshooting methodology

Project 2 – Active Directory Enterprise

- Deployed **AD DS**: built Users, Groups, OUs; applied **Group Policy Objects (GPO)** and Password Policies; configured File & Print Services with role-based access control

Project 3 – Enterprise File Server & Access Control

- Configured **file sharing**, **NTFS permissions**, and printer sharing; enforced least-privilege access control across shared resources

Project 4 – Software Deployment (PDQ Deploy)

- Automated **software installation and patch management** across endpoints using PDQ Deploy; reduced manual deployment effort

Project 5 – Help Desk Troubleshooting Scenarios

- Resolved structured Help Desk cases: **login issues**, **printer faults**, **network connectivity**, **Outlook/email**, and **Windows OS problems** using a diagnose–isolate–resolve–document workflow

Project 6 – Office 365 Administration

- Administered **Microsoft 365 tenant**: user/license management, **MFA** enforcement, and remote support configuration

Project 7 – Documentation, SOP & Asset Management

- Produced **Standard Operating Procedures** and knowledge-base articles; maintained IT **asset inventory** and lifecycle tracking

EDUCATION

Dawson College

2024 – 2026

AEC Cybersecurity

Montreal, QC

Kabul Polytechnic University

2015 – 2019

B.Sc. Information Technology (QC-Recognized)

Kabul, Afghanistan

TECHNICAL SKILLS

IT Support & Help Desk: Tier 1–2 Incident & Service Request Management, ITSM Ticketing, Hardware/Software Troubleshooting, Remote & On-site Support, Desktop/Laptop Imaging & Deployment, Customer Service

Windows Administration: Windows 10/11, Windows Server, **Active Directory (AD DS)**, **Group Policy (GPO)**, User & Access Provisioning, **Office 365 / Microsoft 365**, NTFS Permissions, File & Print Services

Software & Patch Management: **PDQ Deploy**, Software Packaging, Endpoint Patching, Lifecycle Management

ITIL / Process: Incident, Change & Problem Management, **SOP & Knowledge Base Documentation**, Asset Management

Networking: TCP/IP, DNS, DHCP, LAN/WAN, Wireshark, Nmap **Virtualization**: VMware, VirtualBox, Docker

Cybersecurity: Wazuh SIEM, OpenVAS, Vulnerability Assessment, Incident Response, MITRE ATT&CK

Languages: English (Fluent), French (A2 – Improving), Dari (Native)

CERTIFICATIONS

Google Cybersecurity Certificate (Dec 2025) | CompTIA Security+ (In Progress – 2026)
